Canadian Class of 2010 - Top 50 by Position

By: Barry Hayes

Updated: 25 Feb 2010

Cory Joseph

It is time to take a look inside the Class of 2010 from coast-to-coast. Similar to last year's analysis, the best Canadian prospects were first classified into a specific position and then placed in order next to their peers.

*Please note: While some players may return for another year of high school or prep, 5th-year student-athletes are the maximum age group accepted. From now on, 6th-year (or more) student-athletes will be ranked in new separate rankings.

Commitments, both signed and verbal, have been designated in **BOLD** next to the prospect's name.
